

AF&PA®

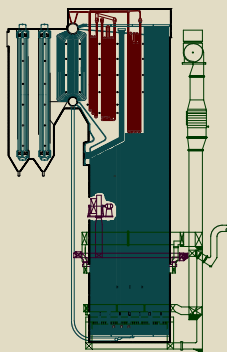

## American Forest & Paper Association CBT-Based Recovery Boiler Training Program

### Purpose:

The program has been developed to provide training for personnel involved in operating recovery boilers and encompasses all processes necessary for safe and efficient operation.

The program is intended to be used by recovery operators, supervisors, technical support personnel or anyone needing to understand the workings of the recovery process.

### NOW Launched in the OPTIMAS™ CBT Platform:

AF&PA and PSA have combined efforts in order to provide the original AF&PA hard-copy training program<sup>1</sup> in a 24/7-accessible, easy to **launch**, **track** and **report** CBT format.

The **base installation**, which can be modified by the end-user, is a complete, generic, **easy-to-implement program** complete with 1,300+ pages of text, 100+ illustrations, 60+ quizzes, User and Admin Guides, Course Assignments, Results Tracking and Report Generation. An example of a certification exam is included.

The “optional” **program upgrade** provides a **cost-effective approach to bridging generic content with site-specific references**. This upgrade allows you to imbed 125+ site-generated, labeled pictures and transition paragraphs into the content .

### Contents

- Module I:     **Pulp & Paper Mill Process Overview and Operating Safety Information**
- Module II:    **Recovery Boiler System Information**
- Module III:   **Recovery Boiler Water and Steam Systems**
- Module IV:    **Combustion Air/Flue Gas Systems**
- Module V:     **Auxiliary Fuel Systems**
- Module VI:    **Combustion of Black Liquor in a Recovery Boiler**
- Module VII:   **Smelt Dissolving Tank System**
- Module VIII:  **General Operating Practices and Introduction to Instrumentation**
- Module IX:    **Emergency Shutdown Procedures and Introduction to Boiler Inspection**

**HOW TO ORDER:** This CBT-based package is supplied by PSA . Your interest and questions regarding either the base installation or program upgrade can be discussed by calling PSA sales at 860-763-3241.

<sup>1</sup> Current ownership or initial purchase of the hard copy AF&PA Recovery Boiler Training Program is a requirement for obtaining the CBT-based AF&PA Recovery Boiler Training Program. If necessary, the hard copy can be purchased, through PSA, with the CBT-based program.
